

Saul Alinsky's '8 Levels of Control for Socialism' Now Operating in America

- 1) Control healthcare and you control the people. Debt – Increase the debt to an unsustainable level. That way you are able to increase taxes and this will produce more poverty.

Saul Alinsky, Author of "Rules for Radicals"

- 1) Poverty – Increase the poverty level as high as possible; poor people are easier to control and will not fight back if you are providing everything for them to live.
- 2) Gun control – Remove people's ability to defend themselves from the government. That way you are able to create a police state.
- 3) Debt – Increase the debt to an unsustainable level. That way you are able to increase taxes and this will produce more poverty.
- 4) Welfare – Take control of every aspect of people's lives (food, housing and income).
- 5) Education – Take control of what people read and listen to; take control of what children learn in school.
- 6) Religion – Remove the belief in God from the government and schools.
- 7) Class warfare – Divide the people into the wealthy and the poor. This will cause more discontent and it will be easier to take from (tax) the wealthy with the support of the poor.

Does any of this sound like what is happening to the United States?
